DETAILED ACTION

The appeal brief has overcome the rejection of previous office action. The finality is withdrawn.

Allowable Subject Matter

Claims 16 and 19-29 are allowed. The following is an examiner's statement of reasons for allowance:

The claimed invention is a semiconductor light-emitting device comprising:

- A substrate having a back surface provided with an n-type lower electrode;
- A light-emitting layer provided on the substrate;
- A p-type semiconductor layer provided on the light-emitting layer; and
- An upper electrode provided on the p-type semiconductor layer, where the upper electrode includes an Au thin film positioned in contact with the p-type semiconductor layer and an n-type transparent semiconductor film formed on said Au thin film; and wherein the Au thin film has a thickness of 1 nm to 3 nm and the n-type transparent semiconductor film is made of In_2O_3 -10 wt.% ZnO.

Reference Ishibashi et al. (US 5,617,446) do not disclose forming an n-type semiconductor layer on top of the thin Au film and the Au film has a thickness of 1 to 3 nm.

Reference Kazuyishi et al. (JP 06-318406) do not disclose a thin Au film underneath the IZO transparent electrode.

Therefore, the above references do not disclose the claimed invention of present application and claims 16 and 19-29 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
